

CHILDREN'S WATER POSTER CONTEST

With the theme "Water: Reduce Your Use" the Drought Response Information Project (DRIP) will be sponsoring a poster contest for Grand Junction's youth. This will give them the opportunity to learn about, think about and help our community practice wise water use.

Posters will be judged in three age categories: ages 5-8, 9-12, and 13-16. Judges include DRIP members from the City of Grand Junction, the Town of Palisade, Clifton Water, Ute Water, and Colorado State University Extension.

One winner, from each age category, will receive a summer pass to the Lincoln Pool, and their posters will be featured in the Free Press and on the DRIP website.

When submitting the poster, please include this form for judging purposes. The information provided will only be used for the sole-purpose of contacting the winners. If you have any questions contact Joe Burtard at (970)242-7491.

Name: _____

Address: _____

Title of Poster: _____

Age: _____ Phone: _____
